

Co-presented by Mountain View Hospital and EIRMC

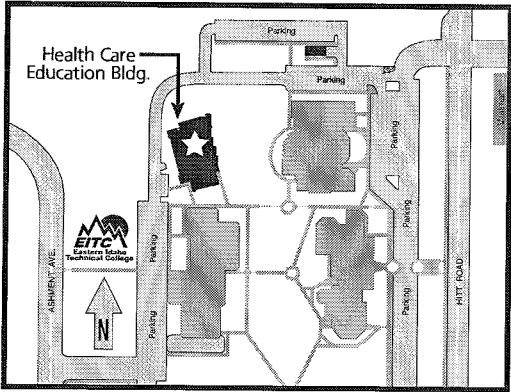

# FREE FAMILY FORUMS for Parents, 'Tweens & Teens

**Tuesday, May 13 or  
Wednesday, May 14  
7 p.m.**

**EITC Healthcare Building Auditorium**

*Due to content, no children younger than 10, please.*

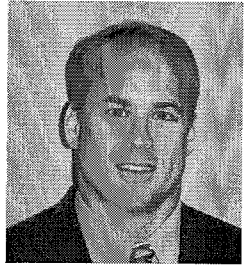

You've seen the ads. But has your family had the crucial follow-up conversations? These Free Family Forums take Idaho's "Not Even Once" campaign to the next level. Come learn as a family — then talk as a family.

Our hospitals share the belief that methamphetamine abuse is the plague of our times. Together, we can make a difference. And together, we will.

Shelley Mitchell  
Mother, wife, Idahoan.  
Former addict, meth-cooker and dealer.

Lt. Steve Davis, Idaho State Police  
Law enforcer.  
Firsthand witness to meth's devastation in our area.

Your stereotypes will be blown away. Your mind will be opened. And the sobering truth about meth will be laid bare, by people who know.

**Topics to be covered:**

- Where local kids are getting it
- What it looks like
- How much it costs
- Why it's so much more addictive than other drugs
- Why the consequences of using meth "even once" are so big
- Signs your child is being pressured
- Signs your child (or his/her friends) may be using
- Signs you live near a meth lab
- Appalling techniques dealers are using to hook very young children
- Tactics to start the family conversation — and keep it going
