

To the Medical Team at Mountain View Hospital,  
**THANK YOU** for all you are doing

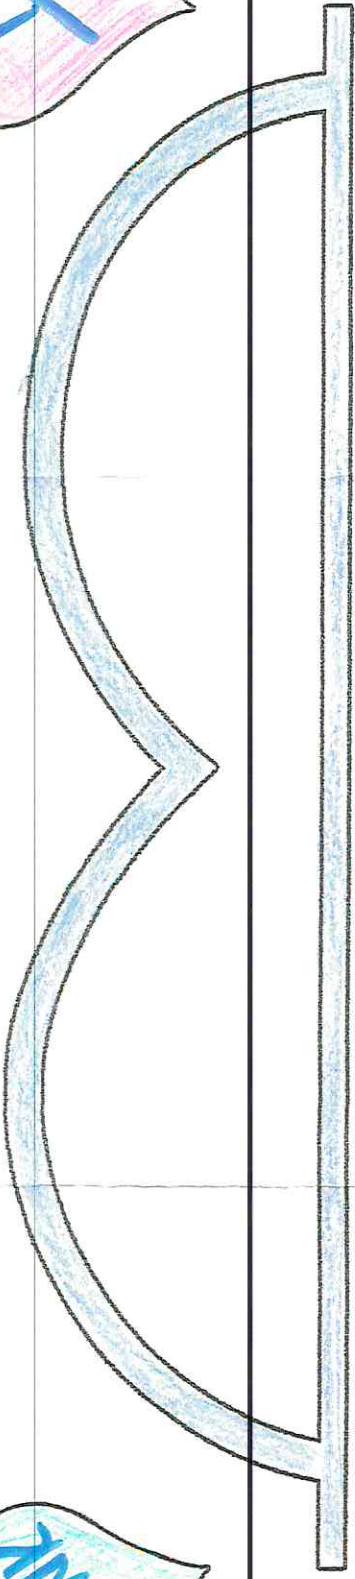

to keep us safe during this pandemic. We know you put yourself and your families at risk everytime you come to work. Yet you show up, mask up and get it done. You are the unsung heroes of 2020 - and we owe you a debt of gratitude we can never adequately express. Your patients will never forget your dedication, compassion, skill and care during a bad time in their lives. We have lots of nurses in our family (7!) so we think of all of you on the front lines every day. We hope + pray that you + your families stay safe until we are through to a better and safer time. Stay safe + take care of yourself.

The Batenburg Family

STAY SAFE!

THANK YOU!
