How it Works

- 1** This coupon is for a screening mammogram only: If you present to the mammography department with symptoms that indicate you need a diagnostic mammogram, our technologist will contact your provider and may have to change your exam type.
- 2** Referring Medical Provider's order must be present at the time of service.
- 3** Should you chose to use this coupon instead of billing your insurance, we will charge an upfront \$45 fee for the digital screening mammogram or \$65 for the digital screening mammogram with implants. If you decide to file the claim with your insurance, Mountain View Hospital will provide you with the necessary paperwork.
- 4** You will receive a separate bill from Medical Imaging Associates for the interpretation of your mammogram. If you have questions regarding the professional fees, please contact Medical Imaging Associates directly at 208-542-5000.
- 5** You will receive a separate bill from Medical Imaging Associates for the interpretation of your mammogram. If you have questions regarding the professional fees, please contact Medical Imaging Associates directly at 208-542-5000.

Mountain View Hospital has been proactive in the fight against breast cancer here in Eastern Idaho since our inception. Through the years, we have made it our mission to educate our community on Breast Cancer Awareness and have supportd screenings through discounted mammograms and donated funds to the public health district for their "Women's Health Check Program".
